SUBJECT: Representation on OSCOL Working Group (U)

1. (C) In reviewing the most recent brief on Community open source collection activities, FBIS programs, I am more than ever concerned that there is no representative from DIA on the OSCOL working group to assist in its deliberations.
2. (C) It is clear that the wide-ranging open source collection activities are of very direct and vital concern to the several production elements of DIA. As a major Community consumer of open source material, I believe this Agency must be represented on the working group to ensure that DoD's perceptions are taken into consideration.
3. (U) The issue of DIA representation is a matter of great concern at this Agency. I therefore request a DIA member be appointed to participate with the group.
